

Oct. 10, 2003

Paul Dabbs
Calif. Dept. of Water Resources

Dear Paul:

Thanks for sending me September 30, 2003 Calif. Water Plan Update.

A great inclusive guide of our water usage (or miss use) and the studies of ongoing problems.

It's interesting to note in every chapter, the water leaving the region was always greater than the water entering the region.

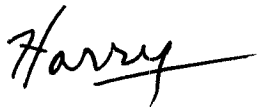

I also appreciate, Calif. water today, 2-7 (The people of Calif. own all the water in the state. Water rights provide the right to reasonable and beneficial use of the water, not ownership of the water.)

I wish more people understood this.

Paul, I've given you some of my articles written for the Stockton Record and others and I'm not sure what you may have seen already so I'm enclosing some other publications you may find of interest.

I hope to see you Oct. 17 in Sacramento.

Best regards:
